### REMARKS/ARGUMENTS

#### 1. Remarks on the Amendments

Claims 1-4 and 6-8 have been canceled without prejudice.

A new claim 21 has been added.

Claim 9 has been rewritten in independent form including all limitations of canceled Claims 6 and 8.

Applicant respectfully submits no new matter has been introduced by the amendments.

There are now 7 claims pending.

#### 2. Response to the Rejection of Claims 1-4 and 6-8 Based Upon 35 U.S.C. §103(a) and Objection of Claims 9-14

Claims 1-4 and 6-8 have been canceled. Therefore, the rejection of these claims based on U.S.C. §103(a) is moot.

Applicant appreciates Examiner's indication of allowable subject matter defined by Claims 9-14.

Claim 9 has been rewritten in independent form which includes all of the limitations of base Claim 6 and intervening Claim 8, as suggested by the Examiner.

New Claim 21 has been added, as a dependent claim of the amended Claim 9, which corresponds to the canceled Claim 7. Applicant respectfully submits that Applicant's claimed device defined by the amended Claim 9 is not obvious in view of the art of record, regardless whether the orientation sensor is mounted on the mounting bed. Therefore, the mounting bed defined by the canceled Claim 7 now is defined in the dependent Claim 21.

Accordingly, Applicant respectfully requests withdrawal of the objection of

Claims 9-14.

It is respectfully submitted that Claims 9-14 and 21, the pending claims, are now in condition for allowance and such action is respectfully requested.

Applicant's Agent respectfully requests direct telephone communication from the Examiner with a view toward any further action deemed necessary to place the application in final condition for allowance.
